THE ROSE FARM, INC.

Purchase Street

▼ ▼ ▼ (Near Rye Lake) ▼ ▼ ▼

White Plains, N. Y.

General Information

ALL roses are guaranteed true to name of good size, and that, when shipped, they are in perfect condition and properly packed. All complaints must be made within one week of receipt of shipment. In no case will we be responsible for more than the original price of the goods.

Our responsibility ceases when we make delivery to the transportation company or to the grounds of the purchaser. If the packages do not arrive on time or are in such bad condition that the contents are damaged, claim should at once be made on the transportation company.

All the roses are field grown and budded on hardy stock, mostly on Multiflora japonica, with the exception of the Climbers, and a few of the Polyanthas, which generally do better on their own roots.

Prices—These are as stated in the body of the catalogue and are F. O. B. our nursery. Five of a variety are charged for at the ten rate and 50 of a variety at the 100 rate.

All novelties are sold at the single rate.

Terms—Cash should accompany order or, if it is desired that shipment be made C. O. D., then at least one-quarter of the total estimated value should be remitted with the order.

If it is desired that a monthly charge account be opened, satisfactory references should be sent.

Descriptions—The descriptions given in the catalogue are based on the most reliable sources available. In the majority of cases, hardiness or otherwise is indicated. When no mention is made of this quality, however, it does not mean that the rose is not hardy. It simply means that it has not yet been thoroughly tested.

Substitution—If you desire us to use our judgment in substituting equally good, similar varieties for any that we may not have in stock, please say so when you order.

To Be Successful With Our Roses Follow the Instructions Given Below

CARE ON ARRIVAL

PLANTING should be done as early as possible in the spring, or if in the fall, before the ground gets cold.

When plants are received, the package should be opened at once and the roses well watered, preferably left for a few hours with the roots immersed in water. If not then planted out permanently, they should be heeled in, the roots well covered with damp soil.

PLANTING

When planting do not allow the roots to be exposed to the sun or the wind.

Teas and Hybrid Teas should be planted about 1½ feet, Hybrid Perpetuals, 2 feet, and Climbers, 6 feet apart. The soil should be thoroughly cultivated, at least 12 to 18 inches deep, and a liberal supply of well rotted cow or horse manure added, along with some bonemeal. If the soil is at all sour also add a little lime. The hole to receive the plant should be large enough to allow the roots to be well spread out and deep enough to allow the lower parts of the lower branches to be about 2 inches below the surface. When the soil is filled in, it should be thoroughly firmed down with the feet. After planting, cut back all the branches to from 5 to 6 inches from the surface of the ground. The soil round the plants should be well watered every few days for a week or two after they are set out.

CARE DURING THE SUMMER

Keep the ground well cultivated all summer. Shortly after the foliage is out, spray with Bordeaux Mixture and repeat two weeks later with Bordeaux Mixture and Arsenate of Lead. Thereafter, dust occasionally with a mixture of 8 parts dusting sulphur, 1 part powdered arsenate of lead and 1 part tobacco dust. If the aphids get too plentiful, spray with any good tobacco mixture. The most efficient way to eradicate the June rose bugs is to pick them off by hand and drop them into a can of kerosene. Every few weeks, up to about the end of August, the roses will benefit by about a trowelful of acid phosphate or bonemeal being dug in round the roots of each bush. For a succession of blooms, the flowers should be cut regularly and with long stems, always leaving, however, at least one eye below the cut. Disbudding superfluous buds will also increase the size of the remainder.

WINTER PROTECTION

The earth should be hilled up round each plant as high as possible, 8 or 10 inches, and after the ground is well frozen, a thick covering of straw added, covering up each plant as high as possible. Any long branches should be cut down but no real pruning done until the spring.

After the covering is removed in the spring, the plants should be properly pruned and a liberal supply of well rotted manure dug in, with some bonemeal or acid phosphate.

New Varieties in Hybrid Tea and Pernetiana ROSES

The following is a list of a number of novelties which are considered as of permanent value for outdoor culture.

Prices: \$1.50 per plant, except where otherwise noted.

ALFRED W. MELLERSH. H. T.

The salmon-yellow flowers of this fine English sort are of a very distinct color, and shade to rose-amber in the center. Vigorous, good habit; deserves wide popularity.

AMERICA (*Hill's America*). H. T.

Beautiful, large, rose-pink, fine shaped flowers, sweetly scented, carried on long stems. Deep, glossy green foliage, almost thornless. Vigorous, free bloomer. A notable American production.

CAPTAIN F. BALD. H. T.

One of the darkest of all roses, being velvety black with scarlet-crimson sheen. Fragrant and a continuous bloomer.

CHARLES K. DOUGLAS. H. T.

Intense flaming scarlet, flushed, bright, velvety crimson. Bud large, long-pointed, flower large, full, double, sweet fragrance. Foliage dark green; vigorous upright grower; produces an abundance of bloom.

DIADEM. H. T.

Hardy. Orange-crimson, suffused deep salmon to coppery-yellow. Good growth and foliage, long stems, with large, full flower; sweetly scented.

FELICITY. H. T.

A beautiful shade of mallow-pink, shading to cerise at border; large, full, sweet scented cupped flowers of special merit.

IMPERIAL POTENTATE. H. T.

Hardy. Clear, silvery pink; large, double, fine fragrance. Awarded silver medal of the American Rose Society and gold medal of the City of Portland.

ROSES, NEW VARIETIES—Continued

INDEPENDENCE DAY. H. T.

Hardy. A combination of flame gold and apricot; globular bud, opening loose; decorative. A continuous bloomer, and gives many flowers.

MISS LOLITA ARMOUR. H. T.

Hardy. Coral to copper; nice bud, opening well; lasts fairly well; medium size; slight fragrance. Foliage beautiful. Growth good. A beautiful rose. Won the Bagatelle prize in Paris in 1921.

MRS. HENRY MORSE. H. T.

Hardy. Bright rose, darker shadings; beautiful spiral bud, holding high center when open; good size; lasting; very free; fragrant. Tall growth with good stem.

MRS. H. R. DARLINGTON. H. T.

Hardy. A beautiful, creamy white with large, long buds, developing into large, full flowers of good shape. Strong, vigorous grower of upright, branching habit, free flowering and delightfully scented. Awarded a gold medal by the National Rose Society of England in 1919.

MRS. REDFORD. H. T.

Hardy. Bright apricot-orange. Well shaped flowers. Good fragrance. Foliage good. Vigorous growth. Very free bloomer.

PRESIDENT WILSON. Per.

A delightful shade of shrimp-pink. The flowers are large and freely produced upon vigorous, erect growths.

REV. F. PAGE-ROBERTS. H. T.

Hardy. Two-tone, flame-color outside on outer petals, yellow-cream inside, apricot in center—pales in full bloom to deep yellow-cream, with orange reverse, lasts well; perfumed slightly. Foliage good. Stem fair. Very fine bloomer. An acquisition for exhibition and garden purposes. Price, \$2.50 each.

SOUVENIR DE CLAUDIUS PERNET. Per.

Hardy. By all means the best yellow rose. Its color is a definite and lovely sunflower-yellow, deepening in the center, and it retains this color, in bud and open bloom. The plants are of branching habit, with brilliant green foliage and few thorns, and the buds are produced on long, stiff stems.

ROSES, NEW VARIETIES—Continued**SOUVENIR DE GEORGES PERNET. Per.**

Hardy. Oriental-red, shading to cochineal, suffused golden yellow; large globular form; decorative like most of the class. Vigorous growth.

SOUVENIR DE H. A. VERSCHUREN. H. T.

Hardy. A beautiful apricot-yellow in center, shading to saffron-yellow at the edges, sweet tea perfume. Foliage fine. Good growth and stems.

THE QUEEN ALEXANDRA ROSE. H. T.

Intense vermillion, deeply shaded old gold on reverse of petals, with orange base. A remarkable color combination, being in lovely contrast. Flowers full, sweet scented.

The Everblooming Roses

Hybrid Teas (H. T.), Pernetianas (Per.), and Teas (T.)

**Prices: \$1.00 each, \$9.00 for 10 of a variety, \$85.00
for 100 of a variety.**

ANTOINE RIVOIRE. H. T.

Hardy. Flesh to cream-yellow, peach center, sometimes shaded light lilac; a delightful combination. Slight fragrance. Best in spring.

BETTY. H. T.

Hardy. Coppery-rose, shaded yellow. Large, good form, semi-double, fragrant, on long stems. Foliage healthy, plentiful. Growth vigorous and a constant bloomer.

CHATEAU DE CLOS VOUGEOT. H. T.

Hardy. Velvety-scarlet to dark velvety-crimson, with some shading almost black; fragrant. Branching growth.

COLUMBIA. H. T.

Hardy. Buds of a lively and beautiful pink, becoming brighter as the flowers develop. Full petalage. Good grower. Free flowering all season. A standard variety.

CONSTANCE. Per.

Orange buds streaked with crimson, opening into large, full flowers of various shades of yellow. A rich and persistent color. Fair growth.

DOROTHY PAGE-ROBERTS. H. T.

Hardy. Coppery-pink and apricot, a beautiful color. Fine form, short to medium stem; large, full, fragrant; good foliage. Growth strong; free flowering.

DUCHESS OF WELLINGTON. H. T.

Hardy. Saffron-yellow, opening lighter. Does not wilt; attractive bud, often stained crimson; open flowers, semi-double. Growth very fine. Foliage good. A most popular variety.

EVERBLOOMING ROSES—Continued

EDEL. H. T.

Hardy. White, ivory flush at base. Large, well built flowers of great depth and quality. Strong grower.

FRANCIS SCOTT KEY. H. T.

Hardy. Rich, crimson-red, good form, large size, very double. Growth fair; stem usually good. A good bloomer.

GENERAL MAC ARTHUR. H. T.

Hardy. Bright crimson. Large, full and well-shaped flower. Fine fragrance. Growth medium.

GOLDEN EMBLEM. H. T.

A beautiful and dependable clear yellow rose, showing lovely buds which sometimes have flames of light crimson on outer petals, on upright stems, well above glossy green foliage of good substance. A desirable yellow rose, and likely to become a great garden favorite.

GORGEIOUS. H. T.

Hardiness good. Deep orange-yellow, veined reddish copper; good petalage, large; lasts well. Growth, stem, and foliage good.

GRANGE COLOMBE. H. T.

Hardy. Outer petals cream, center usually yellow-buff, with, sometimes, a tinge of shrimp-pink; bud long, good size, slight fragrance. Nice bushy growth, stem often strong and of fair length.

GRUSS AN TEPLITZ. H. T.

Hardy. Velvety crimson, shaded maroon; short bud, opens flat; medium size; very fragrant. Remarkably fine growth. Usually holds foliage well. In a class by itself. A remarkable bloomer.

HARRY KIRK. T.

Hardy. Soft, cream-yellow to cream-flesh; bud long and beautiful; open flower, loose, with few but substantial petals. Growth very good. The excellent substance of this rose gives it keeping qualities, and its exceptional hardiness recommends it.

JONKHEER J. L. MOCK. H. T.

Hardy. Carmine, with deep shadings, silvery pink inside; very large, with many petals of great substance, perfumed. Tall growth and very long, strong stems.

EVERBLOOMING ROSES—Continued

JULIET. Per.

Hardy. Inside deep rose, reverse old-gold; large, full; wonderful fragrance. Growth vigorous; good, strong stem.

KAISERIN AUGUSTE VIKTORIA. H. T.

Hardy. Creamy white to light primrose; double, fine shape, above medium size, slight fragrance. Foliage very fine and resistant. A standard variety.

KILLARNEY. H. T.

Hardy. Clear, silvery pink, lovely long bud which opens flat; good size. Continuous bloomer. Good growth; stem seldom deficient.

KILLARNEY QUEEN. H. T.

Hardy. Deep brilliant pink. Extra large, fine form, semi-double, quite fragrant. Medium to long stem. Sufficient foliage. Growth strong.

LADY ALICE STANLEY. H. T.

Hardy. Deep rose to silvery flesh; bud short; open bloom cupped, lasts well; slight fragrance. Medium growth, good strong stem.

LADY ASHTOWN. H. T.

Hardy. Light salmon-pink, variable; fine form; fair lasting qualities; trace of fragrance. Fair growth. Good garden rose, blooming all season.

LADY HILLINGDON. T.

Deep apricot-yellow; lovely buds, semi-double when open; slight, spicy fragrance. Not perfectly hardy, except with good protection.

LADY PIRRIE. H. T.

Hardy. Deep coppery salmon to apricot-yellow; bud attractive; flower well formed; slight fragrance. Of fine, strong growth. Its color has secured its popularity.

LADY URSULA. H. T.

Hardy. Flesh-pink; fair form, though small; lasts well; slight tea perfume. Fine, large, upright growth. Does well for general cultivation, and good for cutting with long stems.

LA TOSCA. H. T.

Hardy. Bright silvery pink, with darker center; bud short; flower loose; medium size; slight fragrance. Remarkably fine growth and nice stem.

EVERBLOOMING ROSES—Continued**LOS ANGELES. H. T.**

Luminous flame pink, toned with coral and shaded yellow at base of petals; a wonderful and delightful combination. Sweet scented. Flowers large and of good form. Vigorous growth and a continuous bloomer. One of the finest roses ever introduced.

LOUISE CATHERINE BRESLAU. Per.

Hardy. Distinct shade of coral-red, solid color; globular form, good size, nice substance. Fragrant. Vigorous grower with a spreading and branching habit.

LULU. H. T.

Deep flame color to orange-pink, bud exceptionally long. Flower almost single. Growth good. Wonderful for table decoration.

MAMAN COCHET. T.

Carmine-rose, shading to cream and fawn at the center; very large, full bloom, often divided; fragrance mild. Foliage practically perfect. Of only fair growth.

MISS CYNTHIA FORDE. H. T.

Large, full, perfectly formed flowers of deep, brilliant rose-pink, with lighter pink reflex and with a distinct line of yet lighter pink on the edges of the pointed petals; sweetly perfumed. Vigorous and free blooming. One of the very best hybrid teas.

MME. BUTTERFLY. H. T.

Hardy. Soft flesh, shaded rose; beautiful spiral bud; attractive, open flower of good size; lasts well; very fragrant. Stem very good. Foliage good.

MME. CAROLINE TESTOUT. H. T.

Hardy. Satin rose, with brighter center; of delightful fragrance; opens quickly, with cupped form. Growth and foliage good.

MME. EDOUARD HERRIOT. Per.

Also known as The "Daily Mail" Rose. Hardy. The color is an extraordinary blending of shrimp-pink, yellow, coral-red and scarlet. The buds are not overlarge but produced in great quantities; borne well above clean, glossy foliage. A wonderful rose.

MME. JULES BOUCHE. H. T.

Very good hardiness. White to flesh-blush, sometimes peach-cream center, long bud; medium to small; slight perfume. Growth bushy and very fine. This variety gives more flowers than any other cutting white hybrid tea.

EVERBLOOMING ROSES—Continued

MME. LEON PAIN. H. T.

Hardy. Silvery salmon shading to orange-yellow in center. A distinct and delightful combination. Large well formed flowers. Vigorous and a good Fall bloomer.

MRS. AARON WARD. H. T.

Hardy. Indian-yellow, occasionally washed light rose; good form, slight fragrance. Compact, upright growth; good stems. Foliage very good.

MRS. AMBROSE RICARDO. H. T.

Hardy. Honey-yellow, outer petals lighter, and sometimes suffused with pink; usually large; quite full, though somewhat flat form. Stem varies, but bloom lasts.

MRS. ARTHUR ROBERT WADDELL. H. T.

Hardy. Reddish-salmon, reverse rosy-scarlet, paling to cream when open; attractive bud; semi-double flower of medium size. Foliage fair. Spreading and bushy growth.

MRS. H. S. PRENTISS NICHOLS. H. T.

A brilliant deep pink. Large double well formed flowers. Free bloomer. Foliage is large, dark green and of a leathery substance. Erect, sturdy habit and a strong grower.

MRS. S. K. RINDGE. H. T.

Hardy. Clear chrome-yellow to salmon-pink; long, pointed bud; opens loose. Good grower and fine bloomer. Decorative.

MRS. WAKEFIELD CHRISTIE-MILLER. H. T.

Large, globular, peony-flowered blooms of pearly blush, shaded salmon-pink, the outside of the petals being vermilion and rose. Plants strong, of erect and vigorous growth. Should be in every selection for the garden.

OPHELIA. H. T.

Very good hardiness. Salmon-flesh, deepening toward center to light orange-salmon; bud perfect; open flower good; medium size, and very regular; fragrance remarkably fine. The best cutting rose among the light shades, its combination of soft, pearly coloring, form, and fragrance being unequalled.

EVERBLOOMING ROSES—Continued**PHARISAER. H. T.**

Hardy. Silver-flesh, suffused light salmon-rose, deeper center; fair length in bud, bloom opens somewhat loose, but holds its center; in size above average and lasts well for its petalage; fragrance slight. Fair foliage. Fine, tall, fairly bushy growth; continuous bloomer.

PREMIER. H. T.

Hardy. Rich dark pink; full, good form, blooms usually borne singly; fragrant. Vigorous grower.

PRINCE DE BULGARIE. H. T.

Hardy. Deep rosy flesh, shaded salmon, occasional yellow tints; good form. Good growth and foliage. Good for cutting.

QUEEN OF FRAGRANCE. H. T.

Hardy. Bright shell-pink, tipped with silver; nice bud, which opens a trifle loose; large in size; fairly lasting; exceptional fragrance. Fine foliage. Fine growth and stem.

RADIANCE. H. T.

Hardy. Dark salmon-pink to silver-flesh; fair in bud; open flower cupped, lasts well, fragrant. Foliage holds in long growing season. Remarkably strong growth and good stem. Constant bloomer. One of the best of the American roses.

RED RADIANCE. H. T.

Hardy. Solid, medium to deep red; of good, cupped form; some fragrance. Vigorous growth. Good foliage. Has long, blooming season, good number of blooms, large growth of cut flower value.

ROSE MARIE. H. T.

Hardy. Bright rose-pink, nearly solid color; fine shape; often quite large; fragrant. Growth and stem both good. The coming pink.

SOUVENIR DU PRESIDENT CARNOT. H. T.

Hardy. Silver-flesh, with clear shell-pink center; oval and very full bud; beautiful open flower, with many petals; quite large and lasts well in color and shape; trace of mild fragrance. Dark, leathery foliage. Uncertain growth, with long but not strong stems. Its clear and lovely color is distinct and it is often a fine cut bloom.

EVERBLOOMING ROSES—Continued

SUNBURST. H. T.

Fairly hardy. Cadmium-yellow, with darker yellow center, verging on saffron; long, lovely buds, opens quickly; slight perfume. Strong, spreading growth.

UNA WALLACE. H. T.

Bright old rose with little shading—really an art color, distinct from any other. Flowers of good size, sweetly perfumed, and freely produced on strong plants.

WHITE KILLARNEY. H. T.

Hardy. Pure white. Large, good to fine form, semi-double, fragrant. Foliage sufficient. Growth medium strong.

WILLIAM F. DREER. Per.

Hardy. Golden yellow, shaded peach and old-rose; fine form; holds color and form; fragrant. Nice grower, quite a continuous bloomer, with stems of fair strength. Very fine during average conditions. A very decided acquisition.

WILLOWMERE. Per.

Hardy. Rich shrimp-pink, shaded yellow in center, toning to carmine-pink; large; opens flat, yet holding a better center than most of class, and of some value as cut flower. Strong, upright growth. Wood of characteristic pithy nature.

Hybrid Perpetual Roses

These are the roses that produce in June the greatest burst of bloom. Some also give some blooms later, but not to the extent that do the Hybrid Teas. They are all hardy, and the majority have large, sweet scented flowers, well worth while in any garden.

Prices: \$1.00 each, \$9.00 for 10 of a variety, \$85.00 for 100 of a variety.

FRAU KARL DRUSCHKI.

Pure snow-white. Extremely large flowers of beautiful form and of lasting quality. If left growing produces many flowers during the summer and fall. A wonderful white rose, probably the most popular rose in America.

GENERAL JACQUEMINOT.

Brilliant velvety crimson, with darker shadings; fairly large, nearly full; very fragrant.

GEORGE ARENDS.

Soft light pink, solid color; very large and full; most fragrant; better than most as a fall bloomer.

J. B. CLARK.

Deep scarlet, shaded plum; large, full, fragrant. Very vigorous.

MAGNA CHARTA.

Rosy-pinkish carmine; large size, freely produced on good plants. An old favorite.

MRS. JOHN LAING.

Soft solid pink; delightfully fragrant. Exceptionally strong stems. Longer flowering period than most of the class. Holds its foliage well in late seasons. Good in size and form.

PAUL NEYRON.

Rose to imperial pink; extremely large, fine form; delightfully fragrant. Very tall grower, with always a few particularly fine fall blooms. Does well pegged down or as a pillar.

ULRICH BRUNNER.

Cherry-red, very fragrant. A very popular, reliable rose, giving a bountiful supply of fine cut blooms.

Polyantha Roses

This is an interesting class of dwarf roses from 15 to 18 inches in height, and very desirable for massing or edging. They are as hardy as the Hybrid Teas and like them bloom continually during the summer and fall. The flowers are borne in clusters.

Prices: 75c. each, \$6.50 for 10 of a variety, \$60.00 for 100 of a variety, except where otherwise noted.

CHATILLON.

Light cerise-pink, white centers; comes in corymbs; about 100 blooms in a corymb; wonderful for cut flower decoration. Stems strong. Vigorous grower; continuous bloomer. A remarkable novelty. Price, \$1.00 each, \$9.00 for 10.

ECHO.

Soft light pink; large, flat, double, in clusters. Continuous bloomer. Vigorous grower.

ELLEN POULSEN.

Large flowers of globular form and brilliant pink color on sturdy and free-blooming bushes.

EUGENIE LAMESCH.

Orange-yellow, passing to clear yellow, heavily shaded with rose. Price, \$1.00 each, \$9.00 for 10.

GRETA KLUIS.

A lovely shade of deep carmine-pink, passing to glowing carmine-red, on a plant of excellent habit and continuous blooming quality.

GRUSS AN AACHEN.

Flesh-pink, center shaded light yellow; large, very double. Erect, sturdy growth of hybrid tea character. Good cutting rose, and different from the class. Very continuous bloomer. Prune as a hybrid tea. Price, \$1.00 each, \$9.00 for 10.

JESSIE.

Cherry-crimson; double, flat flowers, in trusses. Profuse and continuous bloomer. Exceptionally hardy.

GEORGE ELGER.

Golden yellow, opening clear yellow—deepest and most lasting yellow of the class; lovely form. Very continuous bloomer. Medium growth. Price, \$1.00 each, \$9.00 for 10.

KATHARINA ZEIMET (*White Baby Rambler*).

White flat flowers in clusters, fragrant. Continuous bloomer. Strong growth.

POLYANTHA ROSES—Continued

LAFAYETTE.

An entirely new Baby Rambler type, with brilliant, cherry-crimson flowers as large as Paul's Scarlet Climber; produced in immense branched trusses, free and continuous blooming; a splendid rose either when planted as a single specimen or massed in quantity. Price, \$1.00 each, \$9.00 for 10.

MAMAN LEVAVASSEUR (*Baby Dorothy, Pink Baby Rambler*).

A delightful flower of bright pink. Blooms in masses like the climbing Dorothy Perkins. The plants are strong and very floriferous.

MISS EDITH CAVELL.

Ox-blood red; does not fade or blue; semi-double, cupped, a distinct form. Continuous bloomer. Very fine foliage.

MME. ANTH KLUIS.

Glowing deep salmon-pink with an orange reflection, quite distinct from any other variety. Color does not fade. Habit close to Orleans but more compact. Very free and strong, bushy grower. This is a new rose that will undoubtedly become very popular. Price, \$1.00 each.

MME. NORBERT LEVAVASSEUR (*Red Baby Rambler*).

Rich rosy crimson. Is of value by reason of its compact, vigorous habit and continuous production of closely clustered flowers during the whole season.

MRS. W. H. CUTBUSH.

Peach-pink; medium size, double, flat, in clusters. Continuous bloomer. Strong growth.

ORLEANS.

Geranium-red, shaded pink, centers cream-flesh; fairly double, large clusters. Continuous bloomer. Strong growth.

PERLE D'OR.

Nankeen-yellow, orange center; lovely form, double. Medium growth. Fine foliage. Continuous bloomer. Price, \$1.00 each.

TIP-TOP.

Combination of varying colors—soft pink, inner petals cream to golden yellow, outer edges tipped rose; lovely bud, opening with high but loose center, petals often reflexed, lasting. Continuous bloomer. Vigorous. Small to medium growth. Fine foliage. A distinct and desirable rose. Price, \$1.00 each, \$9.00 for 10.

TRIOMPHE ORLEANAIS.

Flowers large, for the class, of a bright cerise-red which is very lasting. A vigorous grower, bearing its blooms profusely in clusters.

Hardy Climbing Roses

Hybrid Wichuraiana (H. W.) and Hybrid Multiflora (H. M.) These bloom on shoots arising from new canes of the previous year, so care should be taken to prune out only the older wood.

Price: 75c. each, \$6.50 for 10 of a variety, \$60.00 for 100 of a variety, except where otherwise noted.

ALBERIC BARBIER. H. W.

Yellow, turning to cream; beautiful glossy foliage. Price \$1.00 each, \$9.00 for 10.

AMERICAN PILLAR. H. W.

Crimson, pink center, white at base of petals, golden stamens; very large, single. Vigorous grower.

AVIATEUR BLERIOT. H. W.

Not always quite as hardy as most of the class. Saffron-yellow, sometimes with claret splashes; buds small; open flower, light golden yellow, turning to cream; has slight magnolia perfume. Fairly vigorous grower.

CHRISTINE WRIGHT. H. W.

Silvery wild-rose pink; very large, double, lasting; very beautiful. Strong grower, long, strong stems.

CL. AMERICAN BEAUTY. H. W.

Carmine to rich imperial pink; fine buds; large, double flowers, usually on strong stems, and sometimes available for cutting. Vigorous.

DOROTHY PERKINS. H. W.

Soft blush-pink; small to medium size, double, in heavy clusters. Very vigorous.

DR. HUEY. H. W.

Dark crimson-maroon, with yellow stamens; semi-double, large blooms, borne singly and in clusters, lasting long and never bluing. Price, \$1.00 each, \$9.00 for 10.

HARDY CLIMBING ROSES—Continued**DR. W. VAN FLEET. H. W.**

Lightest shell-pink to silver-flesh; lovely buds; double flowers on long stems; very distinct and beautiful. One season of bloom, occasional scattering blooms thereafter. Very vigorous.

EMILY GRAY. H. W.

Golden yellow, open flower remaining ecru. Vigorous. Remarkably fine, waxy foliage; young leaves red. This is a new climbing rose that might almost be described as a hardy Marechal Niel. It was awarded a gold medal in England and is becoming deservedly popular in America. Price, \$1.00 each.

EUGENE JACQUET. H. W.

Fragrant, cherry-red flowers, borne freely in very large clusters. A fine climber. Price, \$1.00 each, \$9.00 for 10.

EXCELSA. H. W.

Brilliant scarlet-crimson; small, double, in clusters; much finer in every way than Crimson Rambler. Foliage good. Very vigorous.

GARDENIA. H. W.

Bright yellow buds, opening to small, cream-white flowers. Glossy foliage, which holds well. Vigorous. Price \$1.00 each, \$9.00 for 10.

HIAWATHA. H. W.

Crimson, white base; single, medium to large. Vigorous. Price, \$1.00 each, \$9.00 for 10

LADY GAY. H. W.

Lovely cherry-pink flowers of good size, toning to lighter pink and soft white as they mature, and borne in long, trailing, spray-like clusters which give the whole vigorous plant an effect of lovely pink garlands. Vigorous and similar to Dorothy Perkins.

MARY WALLACE. H. W.

Deep rose-pink. Bud large, long-pointed; flower very large; cupped, semi-double, lasting; borne several together on long stem; fragrant. Foliage abundant, rich, glossy green, disease resistant. Vigorous, profuse bloomer in June and September. This is the new rose originated by the late Dr. W. Van Fleet and introduced last year through The American Rose Society. Price, \$1.50 each.

HARDY CLIMBING ROSES—Continued

PAUL'S SCARLET CLIMBER. H. W.

Bright scarlet-crimson; full; holds form well. Vigorous. Lasts three to five weeks, and has good cut flower value. Color so startlingly bright that should not be planted close to any other climber, save those of white, yellow, or cream tones. Price, \$1.00 each, \$9.00 for 10.

PURITY. H. W.

Purest silver-white; large, semi-double. Vigorous growth, varying sometimes, and carrying many large thorns. Foliage good and well held. Very fine when well grown. Price, \$1.00 each, \$9.00 for 10.

ROSERIE. H. M.

Like its excellent parent, Tausendschön, but much darker, even shade of deep pink or carmine. Wood thornless. Strong grower. Price, \$1.00 each, \$9.00 for 10.

SHOWER OF GOLD.

Deep golden-yellow with orange shadings in the center. Produces masses of flowers in large clusters. Glossy green foliage that resists disease. This fills the long-felt want for a hardy, yellow climbing rose. Price, \$1.00 each, \$9.00 for 10.

SILVER MOON. H. W.

Primrose in its fine buds; open flowers pure waxy white, with yellow stamens, semi-double, very large. Very vigorous. Rich, glossy foliage. A splendid indispensable rose.

TAUSENDSCHÖN. H. M.

Buds bright pink, flower semi-double, cupped, varies when open, being a beautiful combination of colors, including several shades of pink. Very vigorous, with very few thorns.

VEILCHENBLAU. H. M.

Light lilac, fading to light purple and blue; double, opens flat, in panicles. Very vigorous. The so-called "blue rose." Price, \$1.00 each, \$9.00 for 10.

WHITE DOROTHY. H. W.

White, with same characteristics as Dorothy Perkins, and probably the best of the white cluster-flowered hardy climbers.

WICHURAIANA (*Syn. Memorial Rose*).

White, with yellow stamens; small, single, in clusters; fragrant. Very glossy foliage, well retained. Trailing habit; climbs well if supported.

Climbing Hybrid Tea Roses

These are sports of the bush varieties.

In winter the canes should be laid down and covered with earth or wrapped in straw. They bloom more frequently during the season than the hardy climbers, but not so freely as their parents.

Price: \$1.00 each, \$9.00 for 10 of one variety.

CL. ETOILE DE FRANCE.

Brilliant crimson, centering to vivid cerise. Vigorous, climbing habit.

CL. LADY ASHTOWN.

Pale carmine-pink, shading to golden yellow at the base. Large, globular, well-formed blooms.

CL. MME. CAROLINE TESTOUT.

Warm, pink flowers. One of the best.

CL. RICHMOND.

Scarlet-crimson flowers. Reliable.

CL. WINNIE DAVIS.

Light salmon-pink in center, edges cream-flesh; large, fairly full. Strong grower. Good foliage.

Miscellaneous

HUGONIS ROSE (*The Golden Rose of China*).

This is a grand rose and the first to bloom in the spring. It is an upright shrub, growing to about 6 ft. in height, with slender and spreading branches on which the fragrant blooms are borne in long sprays of soft yellow. The foliage holds until late in the fall. The flowers are borne on the growth of the previous year, so should be carefully pruned. Price, \$1.25 each.

PERSIAN YELLOW (*Austrian Briar*).

Deep golden yellow; nearly full; good form, though small. Foliage perfumed, stem short, wood brown, thorns numerous. One early period of bloom. Suitable for the back of the rose bed or the shrubbery. The only pruning should be the removal of old canes. Price, \$1.00 each.
